

How to Do Business With Honeywell FM&T

A practical guide for understanding the Prime Contractor's relationship with both government and corporate environments in the efficient delivery of purchased products and services at the Department of Energy's National Nuclear Security Administration's Kansas City Plant.

Participate in this procurement forum and you will:

- Gain insight on how Honeywell FM&T, a Prime Contractor for the NNSA, procures products and services
- Tour the Technology Display Center and see what we do
- Network with buyers, make contacts
- Meet Small Business advocates from DOE's Office of Economic Impact and Diversity
- Learn how to identify nation-wide DOE/NNSA opportunities

When: August 29, 2012 2:00-5:00 PM

Where: The NNSA's Kansas City Plant, 2000 E. 95th Street Kansas City, MO 64131

Register: Link to the MidAmerica Minority Supplier Development Council web site to register and for more information. www.mambdc.org or contact Maggie Riley to RSVP. Maggie.Riley@mambdc.org

Cost: There is no cost to attend; however, pre-registration deadline is August 15th.
