

## POLICY FLASH 2010-63

DATE: July 2, 2010

TO: Procurement Directors

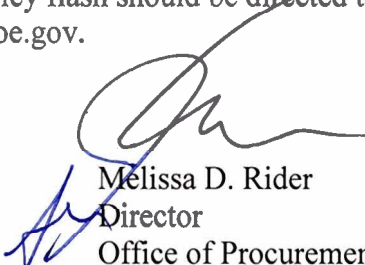

FROM: Office of Procurement and Assistance Policy, MA-61  
Office of Procurement and Assistance Management

SUBJECT: Changes to the Reporting Requirements for Contracts Funded by the American Recovery and Investment Act of 2009 (Recovery Act)

SUMMARY: The reporting requirements for contracts funded by the Recovery Act at Federal Acquisition Regulation (FAR) 52.204-11 have been changed. The reporting requirements now require first tier subcontractors to provide jobs information to the prime contractor for reporting into [www.FederalReporting.gov](http://www.FederalReporting.gov). While the clause applicability is for all new solicitations and contracts issued on or after July 2, 2010, reporting of subcontractor job information is beneficial to the transparency of Recovery Act programs and Contracting Officers are asked to incorporate the revised clause into contracts funded by the Recovery Act as soon as practicable. In addition, contractors should be informed of the change and asked to submit this information for the reports due this month, if possible.

This Flash and its attachments will be available online within a day, at the following website:
