### **Solution for Web Content Filtering**

OCIO selected a Commercial Off-The-Shelf (COTS) web filtering solution as part of a comprehensive risk mitigation strategy. DOE also purchased the COTS vendor's subscription service to receive periodic updates to sites contained within each category based upon the daily evolution of Internet sites.

Re: FOIA-2009-000338

Dear Mr. Mavroudakis:

This is a final response to the request for information that you sent to the Department of Energy (DOE) under the Freedom of Information Act (FOIA), 5 U.S.C. § 552. You asked for copies of all correspondence and meeting notes between Eestor Inc., Zenn Motor Company Inc. and the Department of Energy, and any information on grants to Eestor Inc., and Zenn Motor Company Inc..

Your request was assigned to the Office of the Executive Secretariat, and the Office of the Secretary for responsive documents. A search was conducted of the Electronic Document Online Correspondence and Concurrence System of the Office of the Executive Secretariat. This system tracks all correspondence to and from the Offices of the Secretary, Deputy Secretary, and Under Secretaries of Energy, and is where records of the correspondence are likely to be found. Upon searching your request, the Office of the Executive Secretariat and the Office of the Secretary have determined that there were no documents found as responsive to your request.

You may challenge the adequacy of this search by submitting a written appeal to the Director, Office of Hearings and Appeals, HG-1/L'Enfant Plaza Building, U. S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585-1615. You should submit the appeal within 30 calendar days of receipt of this determination.

The written appeal, including the envelope, must clearly indicate that a Freedom of Information Act appeal is being made. The appeal must contain a copy of this letter, and all the elements required by 10 C. F. R. § 1004.8 to the extent applicable. Judicial review will thereafter be available to you (1) in the District of Columbia, (2) in the district where you reside, (3) in the district where you have your principal place of business, or (4) in the district where the DOE records are located.

If you have further questions, please contact Cindy Luckett at (202) 586-0317. I appreciate the opportunity to assist you with this matter.

Re: Freedom of Information Act Request FOIA-2009-000347

Dear Mr. Kimball:

This is in response to the request for information that you submitted to the Department of Energy under the Freedom of Information Act (FOIA), 5 U.S.C. 552, for information concerning remediated sites MV-001, MVO-002, MV-022 and MV-023 at the Monument Valley UMTRA site and the associated Radiological Engineering Assessment and Completion Report, and the Monument No. 2 mine remediation.

Remediation of the Monument No. 2 mine was not performed by the Department of Energy, but was completed by the Navajo Abandoned Mined Lands Reclamation Project, Tuba City Field Office.

As indicated to you in our previous correspondence, the Office of Legacy Management performed a search of all available records and determined that the enclosed documents are responsive to your request as identified in the enclosed index. The documents are being provided to you in their entirety or with portions withheld pursuant to Exemptions 4 and 5 of the FOIA, 5 U.S.C. 552 (b)(4) and (b)(5), respectively.

Exemption (b)(4) protects “trade secrets and commercial or financial information obtained from a person and privileged or confidential.” Information that is required to be submitted by a person is “confidential” for purposes of Exemption 4 if disclosure is likely to either (1) impair the Government’s ability to obtain reliable and high quality necessary information in the future; or (2) cause substantial harm to the competitive position of the person from whom the information is obtained. The information redacted under Exemption 4 is “commercial” or “financial” information because it relates to business activities.

Exemption (b)(5) protects “inter-agency or intra-agency memorandums or letters that would not be available by law to a party in litigation with the agency.” It protects those documents normally privileged in the civil discovery context, such as pre-decisional, deliberative process documents. The deliberative process protects advice, recommendations, and opinions that are pre-decisional and part of the decision-making process of the Government. The privilege protects not merely documents but also the integrity of the deliberative process itself where the exposure of that process, or an element thereof, would result in harm.

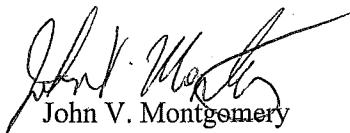

The FOIA provides for the assessment of fees for the processing of requests of documents. See 5 U.S.C. § 552(a)(4)(A)(i); *see also* 10 C.F.R. § 1004.9(a). According to allowable FOIA processing fees, and in accordance with Alexander Morris' letter to you dated May 27, 2009, there will be a charge of \$242.85 for our document production. You will receive a separate billing for this amount.

You may challenge the adequacy of this search for responsive documents by submitting a written appeal to the Director, Office of Hearings and Appeals, HG-1/L'Enfant Plaza Building, U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585-1615. You should submit the appeal within 30 calendar days of receipt of this determination.

The written appeal, including the envelope, must clearly indicate that a Freedom of Information Act appeal is being made. The appeal must contain all the elements required by 10 C.F.R. § 1004.8 to the extent applicable. Judicial review will thereafter be available to you (1) in the District of Columbia, (2) in the district where you reside, (3) in the district where you have your principal place of business, or (4) in the district where the DOE records are located.

I appreciate the opportunity to assist you. If you have any questions, please contact me at (304) 285-0937.

**SUBJECT: HQ FOIA Request 2009-000355 \ ID FOIA 09-026 (OM-PA-09-021)**

Dear Mr. Wenger:

This is in final response to the request for information that you sent to the Department of Energy under the Freedom of Information Act (FOIA), 5 U.S.C. 552. You have asked for records that relate to "classified documents in the possession and/or control of the Department of Energy that discuss the plutonium and RTG that was launched with Apollo missions 12 through 17."

The Office of Nuclear Energy (NE) and the Idaho Operations Office (ID) have completed the search of their respective files for responsive documents. The search, however, did not locate any responsive documents. Pursuant to Title 10, Code of Federal Regulations (CFR), Section 1004.7(b) (2), Mr. R. Shane Johnson, Principal Deputy Assistant Secretary for Nuclear Energy is responsible for the determination that no responsive records exist in NE.

Pursuant to 10 CFR 1004.8, you may challenge the adequacy of the searches for responsive documents by submitting a written appeal to the Director, Office of Hearings and Appeals, at HG-1/L'Enfant Plaza Building, U.S. DOE, 1000 Independence Avenue, SW, Washington, DC 20585-1615. You should submit the appeal within 30 calendar days of receipt of this determination.

The written appeal, including the envelope, must clearly indicate that a FOIA appeal is being made. The appeal must contain the elements required by 10 CFR 1004.8, including a copy of this letter. Judicial review will thereafter be available (1) in the district where you reside; (2) in the district where you have your principal place of residence; (3) in the district where the DOE records are located; or (4) in the District of Columbia.

I appreciate the opportunity to assist you with this matter. If you have any questions about this correspondence, please contact me at (208) 526-5190.

Re: FOIA-2009-000355

Dear Mr. Wenger:

This is in final response to the request for information that you sent to the Department of Energy (DOE) under the Freedom of Information Act (FOIA), 5 U.S.C. 552. You asked for classified documents that discuss the plutonium and Radioisotope Thermoelectric Generators (RTGs) that were launched with Apollo missions 12 through 17.

At Headquarters, the request was sent to the Office of Nuclear Energy and the Office of History and Heritage Resources to conduct a search of their files for responsive records. In a letter dated June 8, 2009, the Office of Nuclear Energy informed you that the search of its files did not locate any records that are responsive to the request.

In a telephone conversation in early July 2009, Ms. Joan Ogbazghi in this office informed you that the Office of History and Heritage Resources located approximately 3,500 pages of records that may be responsive. You agreed to further discussions with the DOE to clarify the subject of the request. During the past two months, Historians from the Office of History and Heritage Resources have attempted to contact you by telephone and have left several voice messages. To date, we have not received a response from you.

In your letter, you agreed to pay up to \$25.00 for any duplication fees associated with the processing of the request. For purposes of assessment of fees, you were categorized under the DOE regulation that implements the FOIA at Title 10, Code of Federal Regulations, Section 1004.9(b)(4), as an "other" requester. Requesters in this category are entitled to two free hours of search time and 100 pages at no cost.

Duplication fees for 3,500 pages will exceed the amount you have agreed to pay. We, therefore, will take no further action about the request.

The above referenced number has been assigned to the request and you should refer to it in correspondence with the DOE about this matter. If you have any questions about this letter or about submitting a more narrowly defined request, you may contact Ms. Ogbazghi at MA-90/Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585, or on (202) 586-3595.

I appreciate the opportunity to assist you.

Sincerely,
